

archa

HIGHLIGHT AND PROTECT YOUR TREASURES

DISPLAY CASE SOLUTIONS

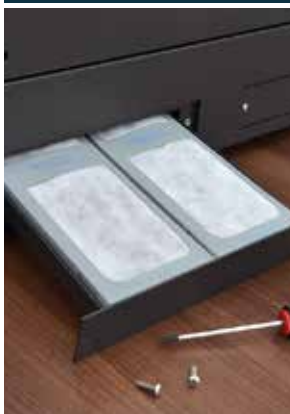

GLASS

Taughtened or laminated glass in required safety level (EN356), available in low-iron or non-reflective option.

LIGHTING, SECURITY and OTHER EQUIPMENT

Archa cases allowed integration of different types of LED, fibre optic or other lighting solutions. High security level is achieved with use of special locking, safety screws and different alarm components.

INTERIOR & EXTERIOR MATERIALS

Wide range of materials (fabric wrapped ZF MDF, powdercoated metal sheet, sprayed MDF) is available for case internal and external parts. We pay great attention to the use of neutral and tested materials.

CONSERVATION TYPES

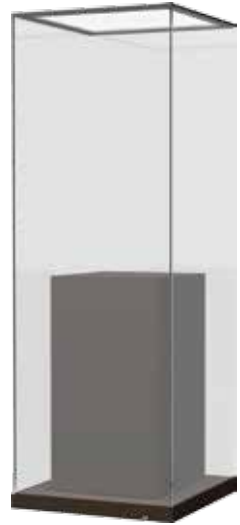

Dustproof or Air-tight cases with active (climatized) or passive (desiccant tray) humidity control. Usage of neutral silicone or gaskets as required.

FREE STANDING

The basic model of free standing display case enables exhibited items to be seen from all sides. The display cases are distinguished with:

- **numerous possibilities of equipment**
(lighting options, climate control, shelving, pedestals...)
- **various opening options**
(hidden hinges or pull & slide door)
- **high security for the exhibited items**
(laminated glass, locking, alarm components)

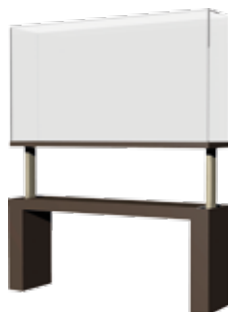

COMMON TYPES OF CASES

TABLE & WALL

Table display cases with glass hood enable presentation and view on exhibited items from the top.

A good lighting and a possibility of closer view enable visibility of smaller details. ARCHA display cases are also available in custom design and different measures.

MODULAR & DEMOUNTABLE

Modular display cases allow easy assembling on-site. They are useful for temporary exhibitions and can be disassembled and stored in accompanied wooden crates.

According to customer's preferences these cases can be combined together and reassembled into different configurations, available with LED lighting and interior shelving.

CUSTOM DESIGN IN REALISED PROJECTS

1. **Musée d'Art de Toulon**,
Toulon, France 2019
2. **Naval Museum Madrid**,
Madrid, Spain 2020
3. **Chateau de Foix**,
Foix, France 2019
